7. Hearing

7.1 A1-20 - Keith Greenwood, Concession 9 S, Part Lot 34, Geographic Township of Proton

7.1.1 Application and Notice of Public Hearing

The Purpose is to consider an application for minor variance to permit the relocation of a home that results in existing structures being in the front yard. The proposal requires relief from Sections 5.1(e) and 5.4(d)(i), of the by-law which requires an accessory structure to be located in a rear or side yard.

The Effect would provide relief from the by-law to permit the reconstruction of a home in a new location that will

cause existing accessory buildings to be located in the front yard.

7.1.2 Comments Received from Agencies and the Public

Planner Clinton Stredwick reviewed comments received from Saugeen Valley Conservation Authority, Southgate Building Department, Southgate Public Works, the County of Grey and the Historic Saugeen Metis. No comments were received from members of the public.

7.1.3 Applicant or Agent

The Applicants were present but did not add any comments at this time.

7.1.4 Committee Member Questions

Members asked questions and staff provided responses.

7.1.5 Comments and Planning Report

Staff Report CL2020-025

Title of Report: CL2020-025-Approval to Waive Consent Application Fees
Department: Clerks
Branch: Planning Services
Council Date: August 26, 2020

Recommendation:

Be it resolved that the Committee of Adjustment receive Staff Report CL2020-025 as information; and

That the Committee waive the fees associated for the new application being submitted by H-Bye Construction Ltd.

Background:

Plan 16R-8783 attached to this report as Attachment #1 is a registered survey in conjunction with a consent application that was approved by the Southgate Committee of Adjustment back in 2004, owned by H-Bye Construction Ltd. At that time, the purpose of the consent application was to merge Part 3 on the plan with Part 1. The owner has now reached out to staff to inquire about the application, as they have found that the consent was not properly merged and registered at the time.

Staff Comments:

Staff have looked into the original consent application and can confirm that all conditions of the consent were met at the time and full payment for the application was received, but that our files did not show any evidence of a deed being stamped, therefore resulting in the likelihood of the consent not being properly registered. Staff then reached out to our Lawyers, who have confirmed that the parts were never legally merged. H-Bye Construction Ltd. owns both properties known as 411272 and 411280 Southgate Sideroad 41 shown on the below map:

In addition, the owner has expressed their interest in adding an additional 120 feet to the parcel. Staff confirmed with our lawyers, that the best course of action is for the owner to submit a new application with the revised plan and staff will ensure that the lots are properly merged and registered, following approval.

To date, the new application has been submitted to the Planner and staff are asking for the Committee to waive the fees associated with the new consent application.

Financial Implications:

Current fees associated with submitting a consent application total \$2,109.00 which includes the application fee, conservation authority fee and the completion and deed stamping fees. The owner would be responsible for completing a survey of the lands.

Communications & Community Action Plan Impact:

This report has been written and presented to Council to communicate accurate information to the public.

Concluding Comments:

That the Committee of Adjustment receive Staff Report CL2020-025 as information and that the Committee waive the fees associated for the new application being submitted by H-Bye Construction Ltd.

Respectfully Submitted,

Dept. Head: *Original Signed By*
Lindsey Green, Clerk

RE: Minor Variance A03-2020
7 Wilson Crescent (Lot 28, Plan 852)
Township of Southgate (geographic village of Dundalk)
Owner/Applicant: Luciano Serafini

Dear Ms. Hewgill,

This correspondence is in response to the above noted application. We have had an opportunity to review the application in relation to the Provincial Policy Statement (PPS) and the County of Grey Official Plan (OP). We offer the following comments.

The purpose and effect of the subject application is to provide relief from the by-law to permit the enlargement of a deck by providing for a 16% increase in lot coverage to 46% and a reduction in the rear yard setback by 3.16m to 4.44m.

Schedule A of the County OP designates the subject lands as 'Primary Settlement Area'. Section 3.5(3) states a full range of residential, commercial, industrial, recreational, and institutional land uses are permitted. Staff have no concerns with the proposal.

Appendix A of the County OP identifies the subject lands in a Wellhead Protection Area (WHPA-D). Section 8.11.2(1)(b) states *a wellhead protection area (WHPA) is the area around the wellhead where land use activities have the potential to affect the quality or quantity of water that flows into the well. These are areas of high vulnerability where the greatest care must be taken in the storage, use and handling of materials that could, if mishandled or spilled, pollute or contaminate a municipal well.* The proposal is residential in nature. This policy typically applies to commercial/industrial developments where there will be fuel storage. County planning staff have no concerns.

County planning staff have no concerns with the subject application.

The County requests notice of any decision rendered with respect to this file.

If you wish to discuss this matter further, please do not hesitate to contact me.

Yours truly,

Staff Report PL2020-032

Title of Report: PL2020-032-A3-20- Luciano Serafini
Department: Clerks
Branch: Planning Services
Committee Date: August 26, 2020

Recommendation:

Be it resolved that the Committee of Adjustment receive Staff Report PL2020-032 for information; and

That the minor variances be approved.

- 1. That** a survey be provided; and
- 2. That** all outstanding taxes, fees and charges are paid, if any.

Property Location: 7 Wilson Crescent in Dundalk

Application Brief:

Mr Serafini would like to enlarge his deck. He plans to build approximately a 3.61m (11.8ft) X 12.7m (41.66ft) new deck. The area of this new deck would be 45.85m² (491.59ft²). The issue is that with a deck this large, relief is required from both the rear yard setback and the total lot coverage.

The current rear yard setback in the by-law is 7.6m (24.9ft) and the proposal would reduce that setback by 3.16m(10.3ft) to 4.44m (14.5ft). Similarly, the total lot coverage is 35% and the addition of the deck would increase that lot coverage by 11% to approximately 46%.

Background:

To obtain a building permit to build the deck, a variance to the by-law provisions is required. Applications for a variance to the Zoning By-law must be consistent with the Provincial Policy Statement and satisfy Section 45 (1) of the Planning Act.

Provincial Policy Statement (PPS)

The PPS provides guidance for comprehensive planning decisions at the Provincial, County and local levels but does not address specific development provisions at the local level. The intent of the PPS as it applies to the Township of Southgate is to encourage growth and development that is suitable to the area. The proposed minor variance will create a situation where the deck will be larger than others in the area and a back yard that is smaller than others.

The PPS does not speak directly to variances and decks for residential uses. As long as a deck is a permitted use and does not create a safety hazard or is constructed in a Hazard area, it can be broadly interpreted that the proposed variance is consistent with the Provincial Policy Statement. The details of the use are further refined in the by-law which will be examined further in this report.

Minor Variance

For a successful variance, the following four tests of Section 45(1) of the Planning Act must all be satisfied:

1. The variance must be minor in nature

The subject lands are approximately 549m² (6000 ft²) in lot area with 18.3m (60ft) of frontage along Wilson Crescent in the former Village of Dundalk. The property is currently developed with a House. The purpose of the variance request is to allow for a deck that is 3.6m (11.7ft) X 12.7m (41.66m) to be constructed within the rear yard setback and to increase the total lot coverage from 35% to 46%. The addition of a deck to a home can usually be considered minor in nature, however, if the deck that is constructed becomes too large or reduces the rear or side yard too much, then it will look out of place and actually become an eyesore to the neighbours. The key to assessing this proposal is to determine what is considered minor. In staff's opinion minor is relative to a situation or neighbourhood.

The proposed deck is approximately 24% of the ground floor area of the house and increases the lot coverage by approximately 11%. If we based our evaluation purely on size then the proposal might not be considered minor on its own. When we look at the lot coverages of other homes in the neighbourhood there are others that have increased lot coverages as a result of either decks, pools or sheds. This is largely because some of the houses are built to the maximum lot coverage for the R1 zone which is 35%. Based on the above and the fact that the variance for lot

coverage would be required for any size deck the variance for lot coverage is minor in nature.

Similarly with the rear yard setback there are other structures that appear to encroach on the rear yard setback for the R1 zone. The reduction of the rear yard setback by 9.5ft in staff's opinion is minor in nature, in this context, as it will be similar to some other lots in the neighbourhood and will still provide for a significant amount of amenity space for the home owner.

The proposal can be considered minor in nature. The proposal meets this test

2. It must be desirable for the appropriate development or use of the land, building or structure

There is no proposed change in use of the subject lands. It is proposed to be used for residential purposes. The construction of a deck on a residential property is an appropriate use and is considered a desirable accessory use.

The location and size of the deck are the issue in terms of appropriate development. Given that there are other properties in the neighbourhood with similar reduced setbacks and increased lot coverages the proposed variance is consistent with other development and therefore appropriate. The deck is in a rear yard and will no impact on the streetscape and character of the area from the road. The application is considered appropriate development on the subject lands.

3. It must maintain the general intent and purpose of the Official Plan

The subject lands are designated 'Neighbourhood Area' within the Township Official plan and Settlement Area within the County of Grey Official Plan. The intent of this designation is allow for a variety of residential uses including single detached dwellings and their accessory uses and structures.

The proposal would limit future development of the property and any new development would require further relief from the by-law for lot coverage. The Official Plan does not speak to the size or setbacks of primary or accessory structures within the neighbourhood area as this is addressed in the Township Zoning By-law. The proposal is a permitted use and therefore, the proposal for the subject lands is appropriate and meets the intent and purpose of the County of Grey and Township Official Plans.

4. It must maintain the general intent and purpose of the zoning by-law

The subject lands are zoned 'R1' Residential in the Township of Southgate Zoning By-law No. 19-2002, as amended. The R1 zone permits a single detached dwelling on a lot, as well as uses, buildings and structures accessory to a permitted residential use. Based on the site sketch provided, size of the lot and size of the house it would not be possible to build any deck without a variance to the by-law for lot coverage. Staff do not believe that it was the intent of the by-law to prohibit

a deck on the subject lands and for that reason some relief from the lot coverage is justified. Notwithstanding the lot coverage, the maximum depth of the deck could only be 7.67ft in order to meet with the current rear yard setback. Staff believe that a deck that is 12 ft deep is not unreasonable and therefore the requested relief is justifiable and in- keeping with other lots within the subdivision.

The intent of lot coverage in a by-law is provide sufficient amenity space as well as infiltration area for stormwater. A deck is an amenity space and therefore there would be no net loss of amenity space on the property. Also provided the entire understory of the deck is not concreted in, there is still open area for water to infiltrate the ground and accommodate stormwater. The proposed drawings shows that the deck is on piers which would indicate otherwise. The proposal therefore conforms to the intent of the lot coverage provision of the by-law

The intent of the rear yard setback is to provide sufficient amenity space on a lot for outdoor activities as well as separation from neighbours. The addition of a deck does not diminish the amount of amenity space on the lot. There is still a 14.5 ft rear yard setback from the rear yard fence. Given that an accessory structure can be placed 2m from the rear fence it 14.5ft is still an acceptable rear yard setback for this lot. Based on the above it is my opinion the proposal still meets the intent of the by-law to preserve amenity space and provide some separation from neighbouring properties.

Based on the above, in my opinion the proposed variance would maintain the general purpose and intent of the Zoning By-law.

Comments from Agencies and the Public

Building Department No concerns or objections with the application.

The County of Grey planning staff have no concerns with the subject application. The Historic Saugeen Metis have no objection to the proposed development. Township Public Works indicate a safe access can be provided, the area is within wellhead protection area "D". The is applicable to dense non aqueous phase liquids(DNAPL's) products. This is managed by education and outreach programs. Public works have no concerns with the application.

The Grand River Conservation Authority have no objection to the proposal.

No comments where received from the public as of the writing of this report.

SUMMARY

This application to vary Section 8.2(d) and 8.2(h) of the Comprehensive Zoning By-law to permit the erection of a deck that increases the overall lot coverage and rear yard setback **passes** the four tests of a minor variance as required by the *Planning Act*.

The planning department therefore recommends the variances to the by-law be approved, if no negative comments are received from the public.

APPLICATION FOR CONSENT - FILE NO. B3/19

OWNERS: Brenden McDonald

SUBJECT LAND: Con 13, Pt Lot 6, Geographic Township of Proton. The lands are further described as 185197 Grey Road 9.

THE PURPOSE of the application is to create a surplus farm lot. The severed parcel will be approximately 1.05 ha and have a frontage of 82.2m and a depth of 120.5m. The retained lot will be approximately 39.2ha and have a frontage of 219.8m. Both parcels have frontage on Grey Road 9. This is in accordance with related zoning file C17-19 and OPA3-19.

THE EFFECT is to sever a 1.05 ha parcel of land from the farm parcel to establish a surplus farm residential lot. The retained lands consist of 39.2 ha and will continue to be farmed.

SEE SKETCH ATTACHED (reverse side)

Property owners within 60 metres of the subject land are hereby notified of the above application for consent. The property to be severed will be marked by a sign.

If a person or public body that files an appeal of a decision of the Committee of Adjustment in respect of the proposed consent does not make **written submission** to: Committee of Adjustment, Township of Southgate office before it gives or refuses to give a provisional consent, the Local Planning Appeal Tribunal (LPAT) may dismiss the appeal.

If you wish to be notified of the decision of the Committee of Adjustment in respect of the proposed consent, you must submit a written request to the undersigned.

Additional information regarding this application is available for public viewing from Monday to Friday 8:30 am to 4:00 pm at the Township of Southgate Administration office OR by contacting Clinton Stredwick, Planner at 519-923-2110 Ext. 235.

Roll No.: 420709000213100
Part Lot 6, Concession 13
Geographic Township of Proton
Township of Southgate

Saugeen Valley Conservation Authority (SVCA) staff has reviewed the consent to sever land in accordance with the SVCA's mandate, the Saugeen Valley Conservation Authority Environmental Planning and Regulations Policies Manual, amended October 16, 2018, and the Memorandum of Agreement between the SVCA and the Township of Southgate relating to plan review. The purpose of the application is to create a surplus farm lot. SVCA staff provided comments to the Township of Southgate dated December 10, 2019 regarding the associated proposed zoning by-law amendment C17-19; and proposed Southgate Official Plan amendment OPA3-19. Please refer to that letter (copy attached for ease of reference) for more details on the property. The proposed consent to sever land is acceptable to SVCA staff. Please inform this office of any decision made by the Township of Southgate with regard to this application. We respectfully request to receive a copy of the decision and notice of any appeals filed.

RE: Proposed Zoning By-law Amendment C17-19; and
Proposed Southgate Official Plan Amendment OPA3-19
185197 Grey Road 9
Roll No.: 420709000213100
Part Lot 6, Concession 13
Geographic Township of Proton
Township of Southgate

(Brenden McDonald)

Saugeen Valley Conservation Authority (SVCA) staff has reviewed the proposed zoning by-law amendment and proposed Southgate Official Plan (OP) amendment in accordance with the SVCA's mandate, the Saugeen Valley Conservation Authority Environmental Planning and Regulations Policies Manual, amended October 16, 2018, and the Memorandum of Agreement between the SVCA and the Township of Southgate relating to plan review. The purpose of the applications is to rezone the property and to allow for an additional lot to be created in the agricultural designation. The proposed zoning by-law amendment and proposed OP amendment are acceptable to SVCA staff and the following comments are offered.

Natural Hazard

In the opinion of SVCA staff, large areas of the property are designated Hazard Lands in the Grey County Official Plan (OP) and the Township of Southgate OP. This same area are also zoned Environmental Protection (EP) in the Township of Southgate Zoning By-law No. 19-2002, as amended. The Hazard Land designations and the EP zone generally coincide with the Hazardous Lands mapping as originally plotted by SVCA staff for the property. It is the opinion of SVCA staff that the parcel proposed to be severed will not be located within the Hazard Lands designations or the EP zone.

Watershed Member Municipalities

Municipality of Arran-Elderslie, Municipality of Brockton, Township of Chatsworth, Municipality of Grey Highlands, Town of Hanover, Township of Howick, Municipality of Morris-Turnberry, Municipality of South Bruce, Township of Huron-Kinloss, Municipality of Kincardine, Town of Minto, Township of Wellington North, Town of Saugeen Shores, Township of Southgate, Municipality of West Grey

Natural Heritage

SVCA staff is of the opinion that the natural heritage features and areas affecting the property include significant woodlands, the adjacent lands to fish habitat, and wetlands.

Significant Woodlands

Significant woodlands are identified as per Appendix B Constraint Mapping of the Grey County OP and are shown in the northern portion of the property and on lands adjacent to the property. However, based on the plans submitted as part of the application, it is the opinion of SVCA staff the preparation of an Environmental Impact Study (EIS) to address potential impacts to significant woodlands is not recommended at this time.

Adjacent Lands to Fish Habitat

Unnamed tributaries of the South Saugeen River flows through the property. These watercourses are considered fish habitat by SVCA staff. Section 2.1.8 of the Provincial Policy Statement (PPS 2014) indicates that, among other things, development and site alteration shall not be permitted on the adjacent lands to fish habitat unless the ecological function of the adjacent lands has been evaluated and it has been demonstrated that there will be no negative impacts on fish habitat or on their ecological functions. Based on the plans submitted as part of the application, it is the opinion of SVCA staff that the preparation of an EIS to address potential impacts to the adjacent lands to fish habitat is not recommended at this time.

Wetlands

Other wetlands are identified as per Appendix B Constraint Mapping of the Grey County OP and are shown on portions of the property. The wetlands are located within the Hazardous Lands designation. Based on the plans submitted as part of the application, it is the opinion of SVCA staff that the preparation of an EIS is not recommended to address potential impacts to the wetlands and its adjacent lands at this time.

SVCA Regulation

Several areas of the parcel proposed to be retained are within the SVCA Approximate Screening Area associated with the SVCA's Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation (Ontario Regulation 169/06, as amended). This Regulation is in accordance with Section 28 of the *Conservation Authorities Act* R.S.O. 1990, Chap. C. 27, and requires that a person obtain the written permission of the SVCA prior to any "development" within a Regulated Area or alteration to a wetland or watercourse.

"Development" and Alteration

Subsection 28(25) of the *Conservation Authorities Act* defines "development" as:

- a) *the construction, reconstruction, erection or placing of a building or structure of any kind,*

- b) *any change to a building or structure that would have the effect of altering the use or potential use of the building or structure, increasing the size of the building or structure increasing the number of dwelling units in the building or structure,*
- c) *site grading, or*
- d) *the temporary or permanent placing, dumping or removal of any material, originating on the site or elsewhere.*

According to Section 5 of Ontario Regulation 169/06, as amended, alteration generally includes the straightening, diverting or interfering in any way the existing channel of a river, creek, stream or watercourse, or the changing or interfering in any way with a wetland.

To determine where the SVCA Approximate Screening Area is located associated with our Regulation on the property, please refer to the SVCA's online mapping program, available via the SVCA's website at <http://eprweb.svca.on.ca>. Should you require assistance, please contact our office directly.

Permission for Development or Alteration

If development or alteration including construction, reconstruction, conversion, grading, filling or excavation, including agricultural tile drainage, is proposed within the SVCA Approximate Screening Area, associated with our Regulation on the property, the SVCA should be contacted, as permission may be required.

For the property, the Regulated Area associated with the SVCA Approximate Screening Area includes wetlands on and adjacent to the property, watercourses and their floodplains, and an offset distance from these features. SVCA staff conducted a site inspection to the property on August 8, 2019 regarding the installation of agricultural tile drainage, and other works. SVCA staff provided permission for that work to the landowner in correspondence dated August 15, 2019.

However, based on the plans submitted as part of the application, the parcel proposed to be severed will not be located within the SVCA Approximate Screening Area. Permission from the SVCA is not required for development on the parcel proposed to be severed.

Conclusion

All of the plan review functions listed in the Agreement have been assessed with respect to the applications. The proposed zoning by-law amendment and proposed OP amendment are acceptable to SVCA staff. We trust you find this information helpful. Should questions arise, please do not hesitate to contact this office.

Staff Report PL2020-030

Title of Report: PL2020-030-B3-19 Brenden McDonald
Department: Clerks
Branch: Planning Services
Committee Date: August 26, 2020

Recommendation:

Be it resolved that the Committee of Adjustment receive Staff Report PL2020-030 for information; and

That the severance be approved with the following conditions:

- 1. The** Eastern laneway of the severed lot is to be removed.
- 2. That** an Official Plan Amendment and Zoning By-law Amendment implementing the consent be in full force and effect.
- 3. That** a deed is prepared and submitted to the Clerk
- 4. That** a survey be provided; and
- 5. That** all outstanding taxes, fees and charges are paid, if any.

Property Location: 185197 Grey Road 9

The Subject Lands:

The subject land is legally described as Con 13, Pt Lot 6, Geographic Township of Proton. The lands are further described as 185197 Grey Road 9. The are approximately 100 acres in size.,

Background:

The purpose of the official Plan application is to allow for an additional lot to be created in the agricultural designation. The lot is a surplus farm severance. The purpose of the zoning by-law amendment application is to implement the Official Plan Amendment and consent by rezoning the retained lands to prohibit residential development and recognizing a new minimum lot area of 96 acres. The minimum lot frontage of the severed parcel will also be recognized as 90m in the residential type 6 exception (R6-457). The effect of the proposed zoning by-law amendment would be to change the zoning symbol on the severed lands from Agricultural (A1) to Residential Type 6 exception (R6-457) to allow for a lot with a reduced lot frontage. The zoning symbol on the retained lands will go from Agricultural (A1) to Agricultural Exception (A1-458) to recognize the reduced lot area and prohibit further residential development on the property.

An Official Plan Amendment and Zoning bylaw amendment were submitted to the Township and assigned a file number C17-19 & OPA3-19. The documents associated with the files can be found at the following link:

<https://www.southgate.ca/en/municipal-services/planning-applications-public-notice.aspx#C17-19-and-OPA3-19-Brenden-McDonald>

A Public meeting for the applications was held on December 18th at 9am.

The OPA and ZBA were Adopted and Approved respectively at the July 8th Council meeting. The OPA has since been forwarded on to the County of Grey and is awaiting a decision.

The purpose of the official Plan application is to allow for an additional lot to be created in the agricultural designation. The lot is a surplus farm severance. The purpose of the zoning by-law amendment application is to implement the Official Plan Amendment and consent by rezoning the retained lands to prohibit residential development and recognizing a new minimum lot area of 38ha. The minimum lot frontage of the severed parcel will also be recognized as 82m in the residential type 6 exception (R6-457). The effect of the proposed zoning by-law amendment is to change the zoning symbol on the severed lands from Agricultural (A1) to Residential Type 6 exception (R6-457) to allow for a lot with a reduced lot frontage. The zoning symbol on the retained lands will go from Agricultural (A1) to Agricultural Exception (A1-458) to recognize the reduced lot area and prohibit further residential development on the property.

The Proposal:

With the OPA and ZBA approved by the Township Council the Consent application B3-19 can now come forward for conditional approval. The details of the application and comments from commenting agencies can be found at the link below:

<https://www.southgate.ca/en/municipal-services/planning-applications-public-notices.aspx#B3-19-Brenden-McDonald> The consent would be approved conditionally on the OPA and ZBA being in full force and effect. If the County for some reason does not approve the amendment to the Official Plan, the Consent would not take effect.

The consent as applied for, is to create a surplus farm lot that has 82m of frontage on Grey Road 9 and a depth of 120.5m. See revised Sketch as attachment 2.

The comments received as of the date of writing this report include the following:

Bell Canada has no concerns.

The Building Department has no concerns.

The Historic Saugeen Metis has no objection or opposition to the proposal.

Hydro One has no comment or concern.

MTO indicates that the development falls outside of the MTO permit control area.

SVCA indicate that the proposed consent is acceptable.

Public Works Department indicate that the consent is on a County Road and therefore County of Grey Jurisdiction.

No comments have been received from the Public.

Policy Review:

A review of the policy was provided at the Official plan and Zoning By-law Amendment stage of the process as well as in the Justification report prepared by the applicants Consultant Cuesta Planning Consultants Inc. This review can be found in attachment 1 to this report in staff report PL2020-017 and the link provide above.

Concluding Comments:

Based on the above, and past planning report PL2020-017, the proposal meets policy. Provided there are no negative comments received from agencies or the public at the public hearing, the committee should consider approval of the consent.

Respectfully Submitted,

Staff Report PL2020-017

Title of Report: PL2020-017-C17-19 Brenden McDonald
Department: Clerks
Branch: Planning Services
Council Date: June 3, 2020

Recommendation:

Be it resolved that Council receive Staff Report PL2020-017 for information; and
That Council direct staff to bring forward the Official Plan Amendment for adoption and the zoning by-law amendment for approval at the July 8, 2020 Council meeting; **OR**

That Council provide direction to staff to suggest to the applicant that lot 7 Con 13 be merged with the subject lands prior to the severance taking place and for the zoning application to be modified to reflect that no additional residence can be constructed on Lot 7 con 13 as well as the retained portion of lot 6 con 13.; **OR**

That Council refuse the application as it does not comply with the Provincial Policy Statement or the Township of Southgate Official Plan.

Property Location:

Subject Lands:

The subject land is legally described as Con 13, Pt Lot 6, Geographic Township of Proton. The lands are further described as 185197 Grey Road 9.

The Proposal:

The purpose of the official Plan application is to allow for an additional lot to be created in the agricultural designation. The lot is a surplus farm severance. The purpose of the zoning by-law amendment application is to implement the Official Plan Amendment and consent by rezoning the retained lands to prohibit residential development and recognizing a new minimum lot area of 96 acres. The minimum lot frontage of the severed parcel will also be recognized as 90m in the residential type 6 exception (R6-457). The effect of the proposed zoning by-law amendment would be to change the zoning symbol on the severed lands from Agricultural (A1) to Residential Type 6 exception (R6-457) to allow for a lot with a reduced lot frontage. The zoning symbol on the retained lands will go from Agricultural (A1) to Agricultural Exception (A1-458) to recognize the reduced lot area and prohibit further residential development on the property.

Background:

An Official Plan Amendment and Zoning bylaw amendment were submitted to the Township and assigned a file number C17-19 & OPA3-19. The documents associated with the files can be found at the following link:

<https://www.southgate.ca/en/municipal-services/planning-applications-public-notice.aspx#C17-19-and-OPA3-19-Brenden-McDonald>

A Public meeting for the applications was held on December 18th at 9am. Comments received from the public meeting include.

Enbridge gas has no concerns.

Historic Saugeen Metis have reviewed the documents and have no concerns.

Public works indicates that the road access is a County road and therefore County jurisdiction.

Saugeen Valley Conservation Authority indicate the proposed zoning by-law amendment and proposed OP amendment are acceptable to SVCA staff.

Grey County indicate that provided the SVCA provides positive comments they have no objections to the proposal.

Financial Considerations:

There are no financial implications for the Township as a result of these applications.

Staff Review:

Cuesta Planning Consultants Inc. provided a detailed review of policy in the planning justification report submitted with the proposal. Generally, the Township agrees with the findings of the report with a few exceptions, which will be reviewed below.

Provincial Policy Statement(PPS):

The applicants submitted a review of the 2014 PPS unfortunately the clergy principal does not apply to PPS 2020. As such the following review is based on the 2020 PPS. It is also noted that the changes to the PPS are largely an update to the PPS and the majority of the applicable policies remain the same.

The PPS 2020 is to be reviewed in its entirety however, I have chosen only to highlight the most relevant policies to the proposed surplus farm severance.

The lands are considered to be prime agricultural lands in section 2.3.3.1 of the PPS.

Section 2.3.3.3 requires that new land uses in prime agricultural areas, including the creation of lots and new or expanding livestock facilities, shall comply with the minimum distances separation formulae.

The applicants agent suggests in their planning report that the proposal meets MDS because MDS guideline 9 exempts surplus farm severances.

MDS Guideline 9 states as follows:

"For a proposed severance of a residence surplus to a farming operation:

1. Where the existing dwelling to be severed and the nearby livestock facility or anaerobic digester are located on separate lots prior to the consent, an MDS I setback is not required for the consent application (or associated rezoning) unless otherwise required by a municipal official plan policy. This is because a potential odour conflict may already exist between those surrounding livestock facilities or anaerobic digesters and the existing dwelling."

In staffs, opinion the Township Official Plan does require that new lot creation complies with the MDS formulae and does not stipulate any relief from the policy

based on the type of severance being sought. This will be explored further in the Official Plan portion of this planning report.

Township staff agree with the Cuesta planning report indicating that the proposed surplus farm severance complies with the policies of section 2.3.4.1. and the remainder of the PPS policy.

County of Grey Official Plan:

The County of Grey Comments indicate that they please the proposal is consistent with the County of Grey Official Plan.

Township Official Plan:

The Township has a more restrictive policy with respect to surplus farm severances within the agricultural designation. A Township Official Plan policy can be more restrictive and still be consistent with the upper tier planning documents and PPS.

The Township Official Plan designates the subject lands as Agriculture and Hazard lands within the Township Official Plan. Only limited lot creation is permitted with the agricultural designation

5.1.2 Consent Policies

5.1.2(4.) New lots created for a residence surplus to a farming operation as a result of a farm consolidation is permitted, provided an implementing zoning by-law is passed which ensures that new residential dwellings are prohibited on any vacant remnant parcel.

Comment: This policy is clear that Surplus farm severances are contemplated within the Township Official Plan provided and implementing zoning bylaw is passed prohibiting future residential development.

- 5.1.2(5.) iii.the minimum distance separation distance can be met; and,
iv.the lot severed for the non-farm use, will not create more than two lots per original township lot.

Comment: This policy states that MDS must be met. The type of severance for which an exemption may be sought is not mentioned and therefore MDS guideline 9 can not be applied. In my opinion, this policy must still be complied with unless specific relief is applied for.

The second policy above indicates the lot density provisions for which the Official Plan amendment has been submitted. If the remnant parcel was merged with Lot 7 Con 13 which is also owned by the applicant this policy the Township would consider this policy addressed. Having two lots spread over 200 acres would achieve the same affect as having a density of 2 lots per original Township lot.

In my opinion the Township should request that the applicant to consider amending their application to include and merge Lot 7 Con 13 which is owned by the applicant.

The General lot creation policies of the Official Plan also support the policy that new lots must comply with the Minimum Distance Separation Formulae, where appropriate. In staff's opinion relief must be provided to exempt the application from this policy.

7.4(k)The creation of new lots must comply with Minimum Distance Separation Formulae, where appropriate.

Township staff agree with the Cuesta Planning Consultants Planning report that the proposal conforms with the other policies of the Township Official Plan save those mentioned above.

Based on the above the proposal is consistent with the Official Plan Policies save and except for the lot density provision which relief has been applied for and the MDS policies of the Official Plan. If the applicant were to revise their application to include the adjacent lot 7 con 13 (merged) and include relief from MDS then Township Staff could support the proposed amendment.

Zoning By-law:

An amendment has been applied for to recognize the reduced lot areas and frontages of the severed and retained lots and to prohibit future residential development on lot 6.

Based on the review of the Township Official Plan Policy, it is Township staff's opinion that lot 7 con 13 should be included with the zoning application to prohibit future residential development on the subject lands to maintain the density provisions of the Official Plan and comply with the Provincial Policy Statement.

Relief from MDS requirements should also be included in the bylaw amendment should it come forward.

Concluding Comments:

The review above indicates that the proposal does not conform with the Township Official Plan regarding the lot density provisions and the MDS provisions. Relief has been requested for the lot density provisions but not the MDS provisions. In staff's opinion the density provisions could be met if the lands were merged with lot 7 con 13.

Based on the above and the supporting materials with the application, Township staff recommend that Council direct staff to engage with the applicants agent and request that lot 7 Con 13 be merged with the subject lands prior to a severance taking place and for the applicant to modify the zoning application to reflect that no additional residence be constructed on Lot 7 con 13 as well as the retained portion of lot 6 con 13.

Saugeen Valley Conservation Authority (SVCA) staff has reviewed the applications for consent to sever land in accordance with the SVCA's mandate, the Saugeen Valley Conservation Authority Environmental Planning and Regulations Policies Manual, amended October 16, 2018, and the Memorandum of Agreement between the SVCA and the Township of Southgate relating to plan review. The purpose of application B1-20 is to sever a 0.8 hectare (ha) area to add to an abutting farm parcel. The purpose of application B2-20 is to sever a 0.8 ha area to add to an abutting ag auction land. SVCA staff provided comments to the Township of Southgate dated April 20, 2020 regarding the associated proposed zoning by-law amendment C2-20. Please refer to that letter (copy attached for ease of reference) for more details on the properties. The applications for consent to sever land are acceptable to SVCA staff. Please inform this office of any decision made by the Township of Southgate regarding the applications. We respectfully request to receive a copy of the decisions and notice of any appeals filed.

Dear Ms. Hewgill,

RE: Proposed Zoning By-law Amendment C2-20
043873 and 043853 Southgate Road 04
Part Lot 9 Concession 6
Roll No.: 420706000511300 and 420706000511310
Geographic Township of Egremont
Township of Southgate (Frey & Mount Forest Ag Auction Co-op c/o Davidson)

Saugeen Valley Conservation Authority (SVCA) staff has reviewed the above-noted application as per our delegated responsibility from the Province to represent provincial interests regarding natural hazards identified in Section 3.1 of the Provincial Policy Statement (PPS, 2014) and as a regulatory authority under Ontario Regulation 169/06 (SVCA's Development, Interference with Wetlands, and Alterations to Shorelines and Watercourses Regulation). SVCA staff has also provided comments as per our Memorandum of Agreement (MOA) with the Township of Southgate representing natural hazards and natural heritage. Furthermore, the application has been reviewed through our role as a public body under the *Planning Act* as per our CA Member approved Environmental Planning and Regulations Policies Manual, amended October 16, 2018.

The purpose of the proposed zoning by-law amendment is to permit a tractor repair shop, and the continued use of the existing granny flat, as well as acknowledge the existing farm auction operation.

SVCA staff were contacted by Ron Davidson for a verbal pre-consultation to ensure all concerns were met with the proposal.

Recommendation

The proposed zoning by-law amendment application is acceptable to SVCA staff.

Site Characteristics

The property is rural with an existing farmstead and outbuildings. Most of the property is used for agriculture. The adjacent, smaller property, contains an accessory building used for auctioning and a parking lot.

Watershed Member Municipalities
Municipality of Arran-Elderslie, Municipality of Brockton, Township of Chatsworth, Municipality of Grey Highlands,
Town of Hanover, Township of Howick, Municipality of Morris-Turnberry, Municipality of South Bruce,
Township of Huron-Kinloss, Municipality of Kincardine, Town of Minto, Township of Wellington North,
Town of Saugeen Shores, Township of Southgate, Municipality of West Grey

Woodlands exist on the northern and western portions of the original farm lot. A tributary of the Saugeen River flows through the property. The property is bordered on the south by Southgate Road 04.

Delegated Responsibility and Advisory Comments

SVCA staff has reviewed the application through our delegated responsibility from the Province to represent provincial interests regarding natural hazards identified in Section 3.1 of the Provincial Policy Statement (PPS, 2014). We have also reviewed the application through our responsibilities as a service provider to the Township of Southgate in that we provide expert advice and technical clearance on *Planning Act* applications with regards to natural hazards and natural heritage as set out in the PPS 2014, County Official Plan (OP) and/or local official plans. Comments below only include features/technical requirements affecting the property.

Natural Hazards:

SVCA hazard mapping indicates areas of the property are affected by the flood and erosion hazard, associated with the tributary of the Saugeen River; additionally, mapping indicates that wetlands may be present on the property. It is SVCA staff's opinion that portions of 043873 Southgate Road 04, are zoned Environmental Protection (EP) in the Township of Southgate Zoning By-law 19-2002 and designated hazard lands in the Southgate Local Official Plan and the Grey County Official Plan. In general, it is SVCA's interpretation that no new buildings or structures are permitted within the Hazard Designations as per Section 29.2 of the Township of Southgate Zoning By-law 19-2002. It appears all existing buildings and structures are outside the EP Zone or Hazard designation. It is the understanding of SVCA staff that there will be no changes to the Hazard designations or the EP Zone, as part of this application. SVCA staff are of the opinion that all schedules closely reflect the SVCA Hazard mapping.

It is the opinion of SVCA staff that development as proposed, including the area to be rezoned, does not encroach into the EP zone.

Provincial Policy Statement – Section 3.1

Section 3.1 of the Provincial Policy Statement dictates that development shall be directed away from hazardous lands adjacent to rivers which may exhibit flood and erosion hazards; and that development and site alteration shall not be permitted within the areas that would be inaccessible during times of flooding or erosion hazards. The application generally appears to be consistent with Section 3.1 of the PPS.

Township of Southgate Official Plan and Grey County Official Plan

Section 6.2 of the Southgate OP and Section 7.2.3 of the Grey County OP states in part that buildings and structures are generally not permitted in the Hazard Lands land use type. As mentioned above, it is the opinion of SVCA staff that proposed development will not be located within the Hazard Lands designation. The application generally appears to be consistent with Section 6.2 of the Southgate OP and Section 7.2 of the Grey County OP.

Natural Heritage:

It is the opinion of SVCA staff that the natural heritage features affecting the property include significant woodlands, fish habitat and its adjacent lands, other identified wetlands, and potentially habitat of endangered species and threatened species.

Provincial Policy Statement – Section 2.1

Section 2.1 of the PPS, 2014 states in part that development shall not be permitted in significant woodlands, fish habitat and its adjacent lands, habitat of endangered species and threatened species and the adjacent lands to the above referenced features except in accordance with the specified policies found in Section 2.1.

Township of Southgate Official Plan and Grey County Official Plan Policies

Significant Woodlands

Significant woodlands are identified as per Appendix B Constraint Mapping of the Grey County OP and are shown on the western and northern portions of the property, as well as the lands adjacent to the property. Section 7.4.1 of the Grey County OP states in part that no development or site alteration may occur within significant woodlands or its adjacent lands unless it has been demonstrated by an Environmental Impact Study (EIS) that there will be no impact on the feature or its ecological functions. However, it is the opinion of SVCA staff the preparation of an EIS to address impacts to significant woodlands may be waived in accordance with section 7.11.3 of the Grey County OP. Based on the plans submitted with the application, proposed development is additional to the existing farmstead and is not proposed within the significant woodlands, but rather on lands adjacent to the significant woodlands. It is the opinion of SVCA staff that proposed development should not have an impact on the woodlands. Therefore, in the opinion of SVCA staff, significant woodlands policies have been satisfactorily addressed according to the Grey County OP.

Fish Habitat and its Adjacent Lands

A tributary of the Saugeen River, flows through the property. The watercourse is considered fish habitat by SVCA staff. Section 7.9 of the Grey County OP in part that development and site alteration shall not be permitted within fish habitat and the adjacent lands to fish habitat unless the ecological function of the adjacent lands has been evaluated and it has been demonstrated that there will be no negative impacts on fish habitat or on their ecological functions. Furthermore, Section 6.5.6 of the Southgate OP states in part that new development is not permitted within the adjacent lands to cold and warm water streams. Regardless, it is the opinion of SVCA staff that the preparation of an EIS to address potential impacts to the adjacent lands to fish habitat may be waived in accordance with section 7.11.3 of the Grey County OP as impacts to fish habitat are likely to be negligible based on the proposal. Therefore, in the opinion of SVCA staff, fish habitat and its adjacent lands policies have been satisfactorily addressed according to the Grey County OP and the Southgate OP.

Other Identified Wetlands

Mapping provided to SVCA staff by the Ministry of Natural Resources and Forestry, and mapping done by Grey County indicates wetland features on the property that are not considered Provincially or Locally significant but are still regarded as a Natural Heritage feature. Section 7.3.2 (1) of the Grey County OP states that no development or site alteration may be permitted on or within lands adjacent to natural heritage features

unless it has been demonstrated that there will be no negative impact on the feature. The area proposed to be rezoned is within the adjacent lands to other identified wetlands, but SVCA staff are of the opinion that the impact to the habitat will be negligible. The application is generally consistent with the Grey County OP.

Threatened and Endangered Species

It has come to the attention of SVCA staff that habitat of endangered species and threatened species may be located on and/or adjacent to the property. The SVCA role is to identify habitat through a screening process in consideration of the PPS and local policies, however, it is the responsibility of the applicant to ensure the endangered species and threatened species policy referred to in the PPS and the local OPS have been appropriately addressed. Please contact the Ministry of Environment, Conservation and Parks (MECP) for information on how to address this policy. MECP inquiries can be addressed to SAROntario@ontario.ca.

Statutory Comments

SVCA staff has reviewed the application as per our responsibilities as a regulatory authority under Ontario Regulation 169/06 (SVCA's Development, Interference with Wetlands, and Alterations to Shorelines and Watercourses Regulation). This regulation, made under Section 28 of the *Conservation Authorities Act*, enables SVCA to regulate development in or adjacent to river or stream valleys, Great Lakes and inland lake shorelines, watercourses, hazardous lands and wetlands. Subject to the CA Act, development taking place on or adjacent to these lands may require permission from SVCA to confirm that the control of flooding, erosion, dynamic beaches, pollution or the conservation of land are not affected. SVCA also regulates the alteration to or interference in any way with a watercourse or wetland.

A portion of the property is within the SVCA Approximate Screening Area associated with Ontario Regulation 169/06. As such, development and/or site alteration within the Approximate Screening Area requires the permission from SVCA, prior to carrying out the work.

"Development" as defined under the Conservation Authorities Act means:

- a) the construction, reconstruction, erection or placing of a building or structure of any kind;*
- b) any change to a building or structure that would have the effect of altering the use or potential use of the building or structure, increasing the size of the building or structure or increasing the number of dwelling units in the building or structure;*
- c) site grading; or,*
- d) the temporary or permanent placing, dumping or removal of any material, originating on the site or elsewhere.*

And;

"Alteration" as per Section 5 of Ontario Regulation 169/06 generally includes the straightening, diverting or interference in any way with a river, creek, stream or watercourse, or the changing or interfering in any way with a wetland.

To determine the SVCA Approximate Screening Area/SVCA Approximate Regulated Area on the property, please refer to the SVCA's online mapping program, available via the SVCA's website at <http://eprweb.svca.on.ca>. Should you require assistance, please contact our office directly.

SVCA Permission for Development or Alteration

If development or alteration including construction, reconstruction, conversion, grading, filling or excavation, including agricultural tile drainage is proposed within the Approximate Screening Area on the parcel, the SVCA should be contacted, as permission may be required.

Based on the site plan provided, a permit from the SVCA will not be required.

Summary

SVCA staff has reviewed this application in accordance with our MOA with the Township of Southgate, and as per our mandated responsibilities for natural hazard management, including our regulatory role under the *Conservation Authorities Act*.

Given the above comments, it is the opinion of the SVCA staff that:

- 1) Consistency with Section 3.1, Natural Hazard policies of the PPS has been demonstrated.
- 2) Consistency with Section 2.1, Natural Heritage policies of the PPS has been demonstrated, with the exception of Section 2.1.7 habitat of endangered species and threatened species, which the applicant must address.
- 3) Consistency with Grey County OP and Township of Southgate policies for natural hazards and natural heritage has been demonstrated, with the with the exception of habitat of endangered species and threatened species, which the applicant must address.

Please inform this office of any decision made by the Township of Southgate with regard to this application. We respectfully request to receive a copy of the decision and notice of any appeals filed.

Should you have any questions, please contact the undersigned.

Sincerely,

Megan Stansfield

Thank you for your correspondence with regard to the proposed Severance. Enbridge Gas Inc, operating as Union Gas, does have service lines running within the area which may or may not be affected by the proposed severance.

Should the proposed severance impact these services, it may be necessary to terminate the gas service and relocate the line according to the new property boundaries. Any Service relocation required due to a severance would be at the cost of the property owner. Also, should future gas service be required to either the severed or retained parcel, a request for gas service needs to be submitted to the District Office.

Should you require any further information, please contact the undersigned.

Saugeen Valley Conservation Authority (SVCA) staff has reviewed the applications for consent to sever land in accordance with the SVCA's mandate, the Saugeen Valley Conservation Authority Environmental Planning and Regulations Policies Manual, amended October 16, 2018, and the Memorandum of Agreement between the SVCA and the Township of Southgate relating to plan review. The purpose of application B1-20 is to sever a 0.8 hectare (ha) area to add to an abutting farm parcel. The purpose of application B2-20 is to sever a 0.8 ha area to add to an abutting ag auction land. SVCA staff provided comments to the Township of Southgate dated April 20, 2020 regarding the associated proposed zoning by-law amendment C2-20. Please refer to that letter (copy attached for ease of reference) for more details on the properties. The applications for consent to sever land are acceptable to SVCA staff. Please inform this office of any decision made by the Township of Southgate regarding the applications. We respectfully request to receive a copy of the decisions and notice of any appeals filed.

Dear Ms. Hewgill,

RE: Proposed Zoning By-law Amendment C2-20
043873 and 043853 Southgate Road 04
Part Lot 9 Concession 6
Roll No.: 420706000511300 and 420706000511310
Geographic Township of Egremont
Township of Southgate (Frey & Mount Forest Ag Auction Co-op c/o Davidson)

Saugeen Valley Conservation Authority (SVCA) staff has reviewed the above-noted application as per our delegated responsibility from the Province to represent provincial interests regarding natural hazards identified in Section 3.1 of the Provincial Policy Statement (PPS, 2014) and as a regulatory authority under Ontario Regulation 169/06 (SVCA's Development, Interference with Wetlands, and Alterations to Shorelines and Watercourses Regulation). SVCA staff has also provided comments as per our Memorandum of Agreement (MOA) with the Township of Southgate representing natural hazards and natural heritage. Furthermore, the application has been reviewed through our role as a public body under the *Planning Act* as per our CA Member approved Environmental Planning and Regulations Policies Manual, amended October 16, 2018.

The purpose of the proposed zoning by-law amendment is to permit a tractor repair shop, and the continued use of the existing granny flat, as well as acknowledge the existing farm auction operation.

SVCA staff were contacted by Ron Davidson for a verbal pre-consultation to ensure all concerns were met with the proposal.

Recommendation

The proposed zoning by-law amendment application is acceptable to SVCA staff.

Site Characteristics

The property is rural with an existing farmstead and outbuildings. Most of the property is used for agriculture. The adjacent, smaller property, contains an accessory building used for auctioning and a parking lot.

Watershed Member Municipalities
Municipality of Arran-Elderslie, Municipality of Brockton, Township of Chatsworth, Municipality of Grey Highlands,
Town of Hanover, Township of Howick, Municipality of Morris-Turnberry, Municipality of South Bruce,
Township of Huron-Kinloss, Municipality of Kincardine, Town of Minto, Township of Wellington North,
Town of Saugeen Shores, Township of Southgate, Municipality of West Grey

Woodlands exist on the northern and western portions of the original farm lot. A tributary of the Saugeen River flows through the property. The property is bordered on the south by Southgate Road 04.

Delegated Responsibility and Advisory Comments

SVCA staff has reviewed the application through our delegated responsibility from the Province to represent provincial interests regarding natural hazards identified in Section 3.1 of the Provincial Policy Statement (PPS, 2014). We have also reviewed the application through our responsibilities as a service provider to the Township of Southgate in that we provide expert advice and technical clearance on *Planning Act* applications with regards to natural hazards and natural heritage as set out in the PPS 2014, County Official Plan (OP) and/or local official plans. Comments below only include features/technical requirements affecting the property.

Natural Hazards:

SVCA hazard mapping indicates areas of the property are affected by the flood and erosion hazard, associated with the tributary of the Saugeen River; additionally, mapping indicates that wetlands may be present on the property. It is SVCA staff's opinion that portions of 043873 Southgate Road 04, are zoned Environmental Protection (EP) in the Township of Southgate Zoning By-law 19-2002 and designated hazard lands in the Southgate Local Official Plan and the Grey County Official Plan. In general, it is SVCA's interpretation that no new buildings or structures are permitted within the Hazard Designations as per Section 29.2 of the Township of Southgate Zoning By-law 19-2002. It appears all existing buildings and structures are outside the EP Zone or Hazard designation. It is the understanding of SVCA staff that there will be no changes to the Hazard designations or the EP Zone, as part of this application. SVCA staff are of the opinion that all schedules closely reflect the SVCA Hazard mapping.

It is the opinion of SVCA staff that development as proposed, including the area to be rezoned, does not encroach into the EP zone.

Provincial Policy Statement – Section 3.1

Section 3.1 of the Provincial Policy Statement dictates that development shall be directed away from hazardous lands adjacent to rivers which may exhibit flood and erosion hazards; and that development and site alteration shall not be permitted within the areas that would be inaccessible during times of flooding or erosion hazards. The application generally appears to be consistent with Section 3.1 of the PPS.

Township of Southgate Official Plan and Grey County Official Plan

Section 6.2 of the Southgate OP and Section 7.2.3 of the Grey County OP states in part that buildings and structures are generally not permitted in the Hazard Lands land use type. As mentioned above, it is the opinion of SVCA staff that proposed development will not be located within the Hazard Lands designation. The application generally appears to be consistent with Section 6.2 of the Southgate OP and Section 7.2 of the Grey County OP.

Natural Heritage:

It is the opinion of SVCA staff that the natural heritage features affecting the property include significant woodlands, fish habitat and its adjacent lands, other identified wetlands, and potentially habitat of endangered species and threatened species.

Provincial Policy Statement – Section 2.1

Section 2.1 of the PPS, 2014 states in part that development shall not be permitted in significant woodlands, fish habitat and its adjacent lands, habitat of endangered species and threatened species and the adjacent lands to the above referenced features except in accordance with the specified policies found in Section 2.1.

Township of Southgate Official Plan and Grey County Official Plan Policies

Significant Woodlands

Significant woodlands are identified as per Appendix B Constraint Mapping of the Grey County OP and are shown on the western and northern portions of the property, as well as the lands adjacent to the property. Section 7.4.1 of the Grey County OP states in part that no development or site alteration may occur within significant woodlands or its adjacent lands unless it has been demonstrated by an Environmental Impact Study (EIS) that there will be no impact on the feature or its ecological functions. However, it is the opinion of SVCA staff the preparation of an EIS to address impacts to significant woodlands may be waived in accordance with section 7.11.3 of the Grey County OP. Based on the plans submitted with the application, proposed development is additional to the existing farmstead and is not proposed within the significant woodlands, but rather on lands adjacent to the significant woodlands. It is the opinion of SVCA staff that proposed development should not have an impact on the woodlands. Therefore, in the opinion of SVCA staff, significant woodlands policies have been satisfactorily addressed according to the Grey County OP.

Fish Habitat and its Adjacent Lands

A tributary of the Saugeen River, flows through the property. The watercourse is considered fish habitat by SVCA staff. Section 7.9 of the Grey County OP in part that development and site alteration shall not be permitted within fish habitat and the adjacent lands to fish habitat unless the ecological function of the adjacent lands has been evaluated and it has been demonstrated that there will be no negative impacts on fish habitat or on their ecological functions. Furthermore, Section 6.5.6 of the Southgate OP states in part that new development is not permitted within the adjacent lands to cold and warm water streams. Regardless, it is the opinion of SVCA staff that the preparation of an EIS to address potential impacts to the adjacent lands to fish habitat may be waived in accordance with section 7.11.3 of the Grey County OP as impacts to fish habitat are likely to be negligible based on the proposal. Therefore, in the opinion of SVCA staff, fish habitat and its adjacent lands policies have been satisfactorily addressed according to the Grey County OP and the Southgate OP.

Other Identified Wetlands

Mapping provided to SVCA staff by the Ministry of Natural Resources and Forestry, and mapping done by Grey County indicates wetland features on the property that are not considered Provincially or Locally significant but are still regarded as a Natural Heritage feature. Section 7.3.2 (1) of the Grey County OP states that no development or site alteration may be permitted on or within lands adjacent to natural heritage features

unless it has been demonstrated that there will be no negative impact on the feature. The area proposed to be rezoned is within the adjacent lands to other identified wetlands, but SVCA staff are of the opinion that the impact to the habitat will be negligible. The application is generally consistent with the Grey County OP.

Threatened and Endangered Species

It has come to the attention of SVCA staff that habitat of endangered species and threatened species may be located on and/or adjacent to the property. The SVCA role is to identify habitat through a screening process in consideration of the PPS and local policies, however, it is the responsibility of the applicant to ensure the endangered species and threatened species policy referred to in the PPS and the local OPS have been appropriately addressed. Please contact the Ministry of Environment, Conservation and Parks (MECP) for information on how to address this policy. MECP inquiries can be addressed to SAROntario@ontario.ca.

Statutory Comments

SVCA staff has reviewed the application as per our responsibilities as a regulatory authority under Ontario Regulation 169/06 (SVCA's Development, Interference with Wetlands, and Alterations to Shorelines and Watercourses Regulation). This regulation, made under Section 28 of the *Conservation Authorities Act*, enables SVCA to regulate development in or adjacent to river or stream valleys, Great Lakes and inland lake shorelines, watercourses, hazardous lands and wetlands. Subject to the CA Act, development taking place on or adjacent to these lands may require permission from SVCA to confirm that the control of flooding, erosion, dynamic beaches, pollution or the conservation of land are not affected. SVCA also regulates the alteration to or interference in any way with a watercourse or wetland.

A portion of the property is within the SVCA Approximate Screening Area associated with Ontario Regulation 169/06. As such, development and/or site alteration within the Approximate Screening Area requires the permission from SVCA, prior to carrying out the work.

"Development" as defined under the Conservation Authorities Act means:

- a) the construction, reconstruction, erection or placing of a building or structure of any kind;*
- b) any change to a building or structure that would have the effect of altering the use or potential use of the building or structure, increasing the size of the building or structure or increasing the number of dwelling units in the building or structure;*
- c) site grading; or,*
- d) the temporary or permanent placing, dumping or removal of any material, originating on the site or elsewhere.*

And;

"Alteration" as per Section 5 of Ontario Regulation 169/06 generally includes the straightening, diverting or interference in any way with a river, creek, stream or watercourse, or the changing or interfering in any way with a wetland.

To determine the SVCA Approximate Screening Area/SVCA Approximate Regulated Area on the property, please refer to the SVCA's online mapping program, available via the SVCA's website at <http://eprweb.svca.on.ca>. Should you require assistance, please contact our office directly.

SVCA Permission for Development or Alteration

If development or alteration including construction, reconstruction, conversion, grading, filling or excavation, including agricultural tile drainage is proposed within the Approximate Screening Area on the parcel, the SVCA should be contacted, as permission may be required.

Based on the site plan provided, a permit from the SVCA will not be required.

Summary

SVCA staff has reviewed this application in accordance with our MOA with the Township of Southgate, and as per our mandated responsibilities for natural hazard management, including our regulatory role under the *Conservation Authorities Act*.

Given the above comments, it is the opinion of the SVCA staff that:

- 1) Consistency with Section 3.1, Natural Hazard policies of the PPS has been demonstrated.
- 2) Consistency with Section 2.1, Natural Heritage policies of the PPS has been demonstrated, with the exception of Section 2.1.7 habitat of endangered species and threatened species, which the applicant must address.
- 3) Consistency with Grey County OP and Township of Southgate policies for natural hazards and natural heritage has been demonstrated, with the with the exception of habitat of endangered species and threatened species, which the applicant must address.

Please inform this office of any decision made by the Township of Southgate with regard to this application. We respectfully request to receive a copy of the decision and notice of any appeals filed.

Should you have any questions, please contact the undersigned.

Sincerely,

Megan Stansfield

Staff Report PL2020-031

Title of Report: PL2020-031-B1-20 and B2-20 Mount Forest Ag
Auction and Levi Frey
Department: Clerks
Branch: Planning Services
Committee Date: August 26, 2020

Recommendation:

Be it resolved that the Committee of Adjustment receive Staff Report PL2020-031 for information; and

That the severance be approved with the following conditions:

- 1. That** a 3m road widening is provide on the severed and retained portion of application B1-20 and a 3m road widening from the retained portion of B2-20
- 2. That** the Zoning By-law amendment is in full force and effect; and
- 3. That** a survey be provided; and
- 4. That** all outstanding taxes, fees and charges are paid, if any.

Property Location: 043853 and 048873 Southgate Road 04

Subject Lands: The subject lands consist of two parcels. The larger farm parcel is 34.7 ha and has frontage on Southgate Road 04. The Ag auction parcel is 5.4 ha in size and has frontage on Southgate Road 04. The lands are legally described as Con 6, Pt Lot 9 and Con 6, Pt Lot 9 Part 1 of RP16R7259.

The Proposal:

The Frey's own a 34.7 hectare farm parcel located along Southgate Road 04 in the Township of Southgate. On the property is situated a house, a mobile home, a barn and accessory buildings. Joshua Frey, a mechanic specializing in repairing tractor engines proposes to erect a 446m² (60 feet x 80 feet) building in which he would operate his tractor engine repair shop. No other persons are expected to be employed in this business.

Given the site conditions, Mr. Frey wishes to erect the building near the front of the property. Township staff have met with Mr Frey Sr. and expressed general support of the proposal, but were concerned with Mr. Frey's original chosen site for the new building as it was situated closer to the neighbouring residential lot (located to the east) than deemed desirable by the Township.

To address this concern, The Frey's are interested in acquiring 0.8 hectares of land from the abutting 5.4 ha property to the west (owned by Mount Forest Ag Auction Co-operative Inc.), thus enabling the new tractor engine repair shop to be moved further away from the nearby residential lot. In exchange, the Frey's would convey 0.8 ha of land back to the neighbour. Attachment #2. This also benefits the neighbour who has a desire for a larger parking area for the auction house.

The proposed new building will be erected in the location shown on the Site Plan provided in Attachment #3. The new structure will be located approximately 18 m from the new lot boundary. Due to the topography of the site, it is not possible to locate the new building any further west. The building will be set back 167 metres from the neighbouring dwelling and 135 metres from the closest boundary of that residential lot. See attachment #4

Background:

Zoning Amendment application C2-20 was submitted and had a public meeting on June 10th, 2020. No comments were received from the public and by-law 2020-079 was brough forward and approved at the August 5th 2020 Council meeting. The Zoning file is available at the following link.

The Comments received from Commenting agencies for both consent applications include:

Bell Canada has no concerns.

The Building Department has no concerns.

The Historic Saugeen Metis has no objection

Hydro One has no comment.

Public works indicate that a 3m Road widening is required for the severed and retained portions of both applications.

The SVCA find the application acceptable.

The BWDSB have no concerns

Enbridge Gas has service lines in the area and if the development impacts on the services to the extent that they must be relocated that cost will be at the owners expense.

No comments have been received from the public as of the date of writing this report.

Policy Review:

A review of the proposal with respect to Provincial, County, and Township Policy has been conducted by the applicant's consultant, Ron Davidson and is available for review at one of the links above.

Staff report PL2020-025 was also prepared reviewing the proposal and has been included as attachment #1 to this report.

Both planning reports conclude that the proposed minor lot line adjustments are consistent with Provincial, County and Township Policy.

Financial Implications:

There are no financial implications to the Township other than the potential for increased assessment in the form of a new workshop on the larger farm parcel.

Concluding Comments:

Based on the above comments received, prior planning reports by the Township and Consultant, Ron Davidson, the proposed consents applications are consistent with Policy and should be approved with the conditions noted in the recommendations above.

Staff Report PL2020-025

Title of Report: PL2020-025-C2-20- Levi Frey
Department: Clerks

Council Date: August 5, 2020

Recommendation:

Be it resolved that Council receive Staff Report PL2020-025 for information; and
That Council consider approval of By-law 2020-079.

Property Location: 043853 and 048873 Southgate Road 04

Subject Lands: The subject lands consist of two parcels. The larger farm parcel is 34.7 ha and has frontage on Southgate Road 04. The Ag auction parcel is 5.4 ha in size and has frontage on Southgate Road 04. The lands are legally described as Con 6, Pt Lot 9 and Con 6, Pt Lot 9 Part 1 of RP16R7259.

Background:

The Frey's own a 34.7 hectare farm parcel located along Southgate Road 04 in the Township of Southgate. On the property is situated a house, a mobile home, a barn and accessory buildings.

Joshua Frey, a mechanic specializing in repairing tractor engines proposes to erect a 446m² (60 feet x 80 feet) building in which he would operate his tractor engine repair shop. No other persons are expected to be employed in this business.

Given the site conditions, Mr. Frey wishes to erect the building near the front of the property. The proposed new building will be erected in the location shown on the Site Plan provided in Attachment #2. The new structure will be located approximately 18 m from the new lot boundary. Due to the topography of the site, it is not possible to locate the new building any further west. The building will be set back 167 metres from the neighbouring dwelling and 135 metres from the closest boundary of that residential lot. See attachment #3

In addition to the double lot addition, the zoning amendment will recognize the existing Agricultural Ag Action as a permitted use in the bylaw, establish a small engine repair workshop, and recognize a secondary dwelling on the lot. The proposed bylaw will also recognize the reduced lot areas and frontages for the proposed lot additions.

Planning Process:

An Application to amend the Township by-law was received in February and deemed complete in March. The file can be viewed at the following link:

<https://www.southgate.ca/en/municipal-services/planning-applications-public-notices.aspx#C2-20-Levi-Edna-and-Joshua-Frey-and-Mount-Forest-Ag-Auction-Co-op-Associated-with-applications-B1-20-B2-20->

A virtual public meeting was held on June 10th, 2020 at 9am. The comments from the meeting are summarized below.

Township Public works Department has no objections to the proposal
County of Grey indicates that provided positive comments are received from the SVCA Grey County has no further concerns.

Township Building Department indicates that all applicable permits will be required.

The project may require a water supply to meet OBC 3.2.5.7 Water requirements for firefighting. Although the auction house has been in operation for six years there has never been a change of use application for the building. A Change of use application needs to be completed, approved and required construction finalized to bring this property into Building Act and Code compliance.

Enbridge Gas has no objection to the proposal.

Historic Saugeen Metis have no concerns or objections to the proposed development.

Ministry of Transportation has no concerns.

Saugeen Valley Conservation Authority find the application acceptable.

Grey Bruce Health Unit have no concerns.

Financial Considerations:

The proposed development would slightly increased the accessed value of the site with the addition of the small engine repair shop on the property.

Staff Review:

The applicants Planning Consultant, Ron Davidson, has prepared a detailed Planning Justification report which is available at on the Township website at the link provided above. The planning report reviews the Provincial Policy Statement in Section 4, The County of Grey Official Plan and the Township of Southgate Official Plans in Section 3 of the report. The report finds that the proposal meets policy

The Township concurs with the findings and conclusions of the Planning report that the proposal is consistent with Provincial Policy, and conforms to the County and Township Official Plans.

Zoning:

The Frey farm is currently zoned primarily 'A1-71', a site-specific zoning that permitted a garden suite on a temporary basis until that temporary zoning recently lapsed. The westerly portion of the site is zoned 'EP'. Approximately 40% of the Co-op property is zoned 'M2-63', which allows for a sawmill and the balance of the property is zoned 'A1'.

To accommodate the proposed development the zoning must be amended to address a number of issues. The proposed Zoning By-law Amendment would amend the following zone provision:

The 'A1-71' zone boundary would be adjusted to reflect the reconfigured Frey property boundary; and, the text of the 'A1-71; zone would be amended to:

- reduce the 'minimum lot area' requirement to 34.0 hectares;
- reduce the 'minimum lot frontage' requirement to 140 metres;

- permit a “tractor engine repair shop”; and,
- permit a “second dwelling” in the form of a mobile home for a period of ten years.

The ‘M2-63’ zoning of the Co-op property would be replaced with an ‘A1-63’ zone and would reflect the boundaries of the reconfigured parcel; and, the text of this zone would:

- reduce the ‘minimum lot area’ requirement to 4.0 hectares;
- reduce the ‘minimum lot frontage’ requirement to 170 metres; and,
- permit an “auction house for farm produce and occasionally farm equipment”.

Concluding Comments:

Based on the above, Township staff are of the opinion that the proposal is consistent with Provincial Policy, The County and Township of Southgate Official Plans. Based on this it is recommended that by-law 2020-079 be **APPROVED**.

Respectfully Submitted,

APPLICATION FOR CONSENT - FILE NO. B3/20

OWNERS: William Penney

SUBJECT LAND: Plan 480 BLK Q Pt lot 8; Lot 9, Geographic Village of Dundalk. The lands are further described as 150 Main St West.

THE PURPOSE of the application is to create a semi detached lot which contains an existing semi detached residence. The severed parcel will be approximately 511m² and have a frontage of 10.165m and a depth of 50.29m. The retained lot will be approximately 511m² and have a frontage of 10.165m. Both parcels have frontage on Grey Road 9.

THE EFFECT is to sever a lot along the middle of a semi detached structure to allow for one half of the semi detached residence to be in separate ownership.

SEE SKETCH ATTACHED (reverse side)

Property owners within 60 metres of the subject land are hereby notified of the above application for consent. The property to be severed will be marked by a sign.

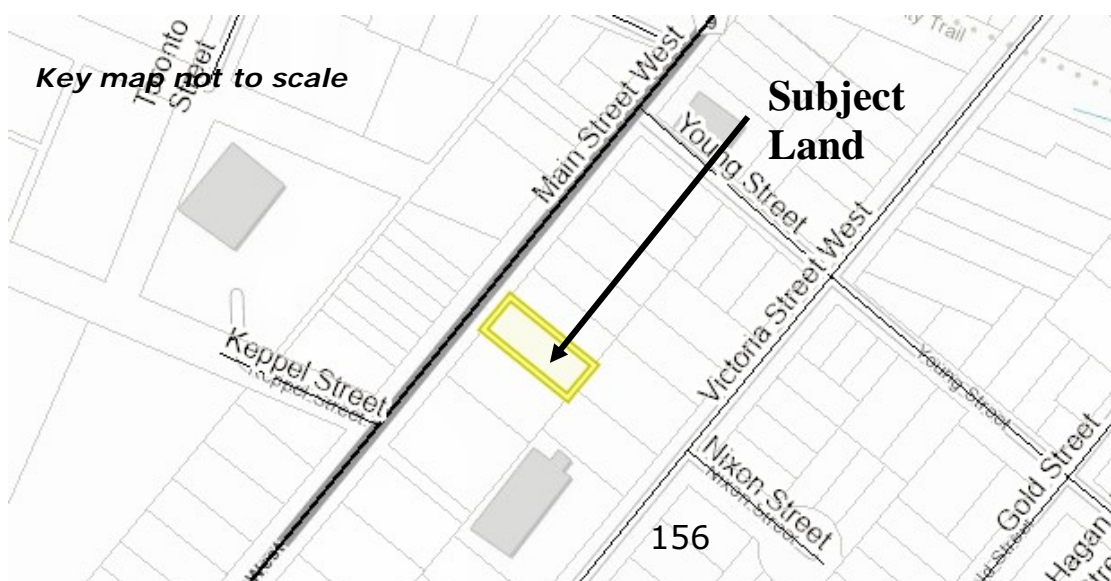

If a person or public body that files an appeal of a decision of the Committee of Adjustment in respect of the proposed consent does not make written submission to: Committee of Adjustment, Township of Southgate office before it gives or refuses to give a provisional consent, the Local Planning Appeal Tribunal (LPAT) may dismiss the appeal.

If you wish to be notified of the decision of the Committee of Adjustment in respect of the proposed consent, you must submit a written request to the undersigned.

RE: Consent Application B03/20
150 Main Street West
Township of Southgate
Applicant/Owner: William Penney

Dear Ms. Green,

This correspondence is in response to the above noted application. We have had an opportunity to review the application in relation to the Provincial Policy Statement (PPS) and the County of Grey Official Plan (OP). We offer the following comments.

The purpose of the application is to create a semi detached lot which contains an existing semi detached residence. The severed parcel will be approximately 511m² and have a frontage of 10.165m and a depth of 50.29m. The retained lot will be approximately 511m² and have a frontage of 10.165m. Both parcels have frontage on Grey Road 9.

Schedule A of Recolour Grey designates the subject property as a 'Primary Settlement Area'. Section 3.5 states,

2) Land use policies and development standards in areas designated Primary Settlement Areas will be in accordance with local official plans and/or secondary plans

3) This Official Plan promotes the development of Primary Settlement Area land use types for a full range of residential, commercial, industrial, recreational, and institutional land uses. These areas will be the focus of the majority of growth within the County.

County planning staff have no concerns with the proposed development. Further comments should be received from the Township of Southgate.

Appendix of Recolour Grey indicates that the subject property contains 'Wellhead Protection Zone – B'. Section 8.11.2 states,

b) A *Wellhead protection area* (WHPA) is the area around the wellhead where land use activities have the potential to affect the quality or quantity of water that flows into the well. These are areas of high vulnerability where the greatest care must be taken in the storage, use and handling of materials that could, if mishandled or spilled, pollute or contaminate a municipal well. WHPAs are shown on Appendix A of this Plan and further information about WHPAs can be found in the local *source protection plans*.

The subject application will not utilize any fuel or potential contaminants; therefore, County planning staff have no concerns.

County Transportation Services have reviewed the subject file and have no concerns.

County planning staff have no further concerns with the subject application.

The County requests notice of any decision rendered with respect to this application.

If you wish to discuss this matter further, please do not hesitate to contact me.

Yours truly,

Thank you for your correspondence with regard to the proposed Severance. Enbridge Gas Inc, operating as Union Gas, does have service lines running within the area which may or may not be affected by the proposed severance.

Should the proposed severance impact these services, it may be necessary to terminate the gas service and relocate the line according to the new property boundaries. Any Service relocation required due to a severance would be at the cost of the property owner. Also, should future gas service be required to either the severed or retained parcel, a request for gas service needs to be submitted to the District Office.

Should you require any further information, please contact the undersigned.

Importance: High

As per your letter regarding the above file, I am forwarding my concerns/appeal in writing today.

I have listed my concerns below and they need to be addressed as previous concerns have not.

1. **A proper survey be conducted by a reputable, licensed survey company.** At no time was a proper survey done prior to building and we are a little fed up with the "guesstimating".
2. If the severance is allowed, the owners of each half of the semi will then be allowed to rent the apartments that were build in the basements of the unit. The semi will then become a quad which was never mentioned in the initial meeting prior to building. There needs to be assurance that there is sufficient space available for parking for 4 units. We would like to know the correct procedure that is necessary should we find vehicles blocking our drive, in our drive, or causing safety issues exiting our drive.
3. Snow accumulation. Where will all the snow from the drive be put? Again, what is the correct way to deal with a safety issue exiting our drive should the snow be piled so high we cannot see to safely enter the roadway.

These are my immediate concerns. Should more come to mind prior to the meeting I will forward another email.

Edward and Deborah Russell

Elisha and Clinton,

I'm am forwarding my letter of concerns to you again as I noticed I had a typo in my previous one and my OCD wouldn't let it go. Also, I have included one more item we would like addressed.

Please let me know you have received the revision.

Cheers,

4. Water accumulation. The property in question does not have a water accumulation problem since they built at least 2 feet above the highest adjacent property. All properties bordering the property in question now suffer from extreme water issues during rainy seasons. It was my understanding that properties are not supposed to built up to this extent.

These are my immediate concerns. Should more come to mind prior to the meeting I will forward another email.

The Proposal:

The proposal is to sever the existing lot which has a semi-detached structure on it into two equal halves. Each new lot would have 10.1 m of frontage and a depth of approximately 50m. The area of each lot is proposed to be 511m².

Background:

The property was originally rezoned from Residential Type 2 to Residential Type 3 to permit a semi detached dwelling in March of 2012 by by-law 11-2012.

Subsequently Mr. Penney has begun constructing a semi detached dwelling with both units having basement storage areas that have separate entrances and are constructed to accommodate an accessory apartment.

During pre-submission consultations with Mr. Penny, he indicated that he intended on having accessory apartments in each unit and inquired about parking requirements.

Mr. Penney submitted application B3-20 which can be reviewed along with comments received at the link below.

<https://www.southgate.ca/en/municipal-services/planning-applications-public-notice.aspx#B3-20-William-Penney>

Comments received for the application include:

Bell – no concerns

Building Department – An Engineered lot grading plan is required

Endbridge Gas indicates that services lines are in the area and if the development disrupts those lines or requires the relocation of lines it will be at the expense of the property owner.

GRCA have no objection

The Historic Saugeen Metis have no objection

The MTO indicates that the development is outside of their permit control area.

Public Works indicates that the property is within the WHPA B which restricts DNAPL's and is managed by education and outreach. A lot grading plan is also required to ensure proper drainage is dealt with on the property so as not to impact the roadway or the adjacent neighbouring properties. A public safety concern we see is the capacity for on property front yard snow storage area on the residential lot based on the conflict we see with the required development parking area and

public road allowance snow storage use by the County of Grey cannot be used by the property owner, if each new lot is permitted to have primary residential unit with an accessory apartment unit density.

***Please note: Public Works comments are based on written comments received, as well as verbal communications with the Public Works Manager. ***

One member of the public submitted written comments.

Debbie Russell indicates that she would like a proper survey prepared by an OLS. She had concerns surrounding parking for subsequent tenants and subsequent accessory apartments. She also has a concern regarding snow removal and drainage concerns.

Policy Review:

Provincial Policy Statement:

Section 3 of the Planning Act (PPS) requires all decisions made under the Act by an approval authority to "be consistent with" the Provincial Policy Statement (PPS). The PPS provides a number of policies that are designed to protect planning matters of interest to the Ontario Government. The following is an evaluation of the proposed development within the context of the relevant PPS policies:

Section 1.1.3 Settlement Areas

1.1.3.1 Settlement areas shall be the focus of growth and development

1.1.3.2. Land use patterns within settlement areas shall be based on densities and a mix of land uses which:

- a) Efficiently use land and resources;*
- b) Are appropriate for, and efficiently use, the infrastructure and public service facilities which are planned or available, and avoid the need for their unjustified and /or uneconomical expansion;*
- c) Minimize negative impacts to air quality and climate change, and promote energy efficiency;*
- d) Prepare for the impacts of a changing climate;***
- e) Support active transportation;*
- f) Are transit-supportive, where transit is planned, exists or may be developed; and*
- g) Are freight-supportive.*

Land use patterns within settlement areas shall also be based on a range of uses and opportunities for intensification and redevelopment in accordance with the criteria in policy 1.1.3.3. where this can be accommodated.

Comment: The PPS is supportive of intensification of this nature. The one area where the proposal may be lacking in its consistency with the PPS, is in preparing for the impacts of a changing climate. Climate change has been known to cause

more severe storms and increased flooding in some areas. The drainage in this area is a known issue and must be addressed. To prevent flooding, municipalities should take into account stormwater management when approving any development. If an opportunity exists to improve stormwater management for this area, it should be considered. The applicant has raised the level of his lands so that the flow of water has changed in that area which has created flooding and ponding on other properties. To address this an engineered grading and drainage plan should be prepared and constructed at the owners expense, if necessary with a 3 meter easement for drainage purposes should be required at the rear of the property to facilitate drainage in the area.

If the storm drainage issue is addressed staff believe that the proposal will be consistent with the relevant policies of the Provincial Policy Statement.

Township Official Plan:

The Township Official Plan designates the subject lands as neighbourhood area, which permits a wide range of residential and neighbourhood commercial uses.

Permitted uses 4.1.1(v). Residential intensification in the form of *infilling*, accessory apartments and bed and breakfast accommodations.

The proposal is a permitted use in the Official Plan as are the contemplated accessory apartments.

"4.1.2 (7) Townhouse and Multiple Dwellings

In considering a zoning by-law amendment and site plan to permit a townhouse and multiple unit dwelling, Council shall be satisfied of the following:

i. The proposed use is compatible with the surrounding lands, with regard to scale and visual impact.

ii. The use will not cause or create traffic hazards or an unacceptable level of congestion on surrounding streets.

iii. The use is located on a site that has adequate land area to incorporate required parking, open space, landscaping and buffering.

iv. The use can be serviced by municipal water and sewer services.

v. The proposed lots can be adequately serviced by adequate community facilities, including schools and parks.

vi. Townhouse and Multiple Dwelling development shall require stormwater management for both quantity and quality control, as approved by the Municipality and other approval authorities."

Comment: The above policies must be taken into consideration for development on the lands to proceed. The lots must be large enough to accommodate, parking, landscaped area, amenity space and stormwater management. It has not been sufficiently demonstrated that the individual semi detached lots will be able to accommodate landscaped area, parking, snow storage and removal and stormwater management.

In order to address these concerns a Development agreement can be entered into which requires an engineered grading and drainage plan for the site as well as a site plan to delineate parking areas as well as snow storage areas. This should address these policy deficiencies and so should be made a condition of approval.

4.1.4 Consents

Consents may be permitted, subject to the following:

- i. Residential infilling;*
- ii. Creation of non-residential parcels will be subject to Site Plan Control;*
- iii. The lot size and configuration of both the parcel to be severed and the parcel to be retained should be in keeping with the surrounding area; and*
- iv. Consents shall be prohibited where a Plan of Subdivision is the more appropriate process of creating lots and in the following circumstances:*
 - a. Where development exceeds the definition of infilling;*
 - b. Where the extension of a public road would be required;*
 - c. Where the extension of municipal services is required; and,*
 - d. Where it is apparent that an application for a consent could be one of several similar applications from the original holding.*

Comment:

The Development can be considered a form of infilling and the services are already present to the site.

7.4 General Lot Creation Policies

Where division of land is considered, the approval authority shall have regard to the policies of this Plan, the matters set out in the Planning Act, R.S.O. 1990, as amended and the following considerations:

- a) The land division is permitted by the land use policies of this Plan.*
- b) The land division shall promote development in an orderly and contiguous manner, and shall not conflict with the established development pattern of the area.*
- c) The proposed use is compatible with existing and permitted future land uses on adjacent lands.*
- d) The servicing requirements of this Plan shall be met.*
- e) New lots will not be permitted where the proposed access would create a traffic hazard because of limited sight lines.*
- f) The creation of new lots for space extensive commercial or industrial uses outside of community areas which require access to a County Road may be permitted subject to the approval of the County of Grey and the Township of Southgate.*
- g) There shall be evidence that soil and drainage conditions are suitable to permit the proper siting of buildings, that a sufficient and potable water supply exists, and that an adequate means of sewage disposal can be provided.*

- h) New lots created through consent may include Hazard Lands and Wetlands, provided that on both the severed and retained parcels there is sufficient land outside of the Hazard Lands and Wetlands to accommodate the proposed development, including any required setbacks. An Environmental Impact Study may be required in support of the development, to the satisfaction of the Township of Southgate, County of Grey and the Conservation Authority.*
- i) Where the limits of the hazard lands are not clearly identifiable, engineered flood line mapping or geotechnical slope assessment may be required, at the owners' expense, to substantiate the extent of the developable lands to the satisfaction of the Township of Southgate and the appropriate Conservation Authority.*
- j) Where the hazard lands are not already appropriately zoned, a site specific zoning by-law amendment must be approved as a condition of consent.*
- k) The creation of new lots must comply with Minimum Distance Separation Formulae, where appropriate.*
- l) The clustering of new lots is encouraged.*
- m) All new entrances will be subject to the approval of the appropriate road authority (ie. Township of Southgate, County of Grey).*
- n) The creation of new lots with frontage on a public road which is not maintained year round, is not permitted.*
- o) The creation of new lots will only be permitted upon approval by the Chief Building Official, of a private sewage treatment system.*
- p) Location criteria for new lots created by the consent process will be cognizant of surrounding land uses, drainage, topography, distances to adjacent buildings, access, sight lines and environmental features in the area.***
- q) Any conditions, including zoning if required, shall be fulfilled, prior to the final approval of the lot creation.*
- r) Public facilities and uses are permitted in all designation subject to land use compatibility.*

Comment:

The proposal generally conforms to the applicable lot creation policies with the exception of the bolded one above. Without the preparation of an engineered grading and drainage plan or a plan for snow storage and parking, the proposal fails to meet the criteria. As noted earlier this criteria can be addressed via a development agreement which would include the above mentioned items. It is recommended that this be included as a condition of approval.

Zoning By-law:

The property was zoned as R3 residential which permits a semi-detached structure. The proposed severance would meet the lot provisions for a semi-detached structure.

Should the accessory apartments be installed, however, it is not clear that the lot can support the additional two accessory units. Each semi-detached unit is required to have two parking spaces in the bylaw and each accessory apartment is required to have one parking space. Similarly with additional parking snow storage will

become more of an issue. If there is insufficient space for snow it could pose a safety hazard during the winter months. It is also not clear if each individual lot can satisfactorily address the drainage concerns of the area.

In staff's opinion, it has not been sufficiently demonstrated that the site can support additional parking safely along with providing sufficient snow storage so as not to create a safety hazard. To address this concern along with the drainage concerns noted previously, a Development agreement can be entered into which includes an engineered drainage plan, site plan for parking and snow storage as well as a snow removal plan if storage of snow becomes an issue.

Financial Implications:

There are relatively low financial implications for this proposal because the semi-detached structure is already there.

The financial implications to the property is the costs of a lot grading plan, constructing the lot in compliance with the lot grading plan and any other costs annually as set out in a development agreement that would be registered on title at the owner's expense committing to snow removal costs each year if required by the municipality.

Concluding Comments: At the time of writing this report staff have not received comments from the County of Grey. If the County of Grey have concerns, particularly with regard to road entrance access, snow storage and drainage onto Grey Road 9 these should be taken into consideration. The concerns about drainage, parking, surveys and snow storage can all be addressed and with a development agreement to ensure that issues are addressed and enforceable. With the above conditions, the Consent to sever can be approved.

APPLICATION FOR CONSENT - FILE NO. B4/20

OWNERS: Paul and Ina Martin

SUBJECT LAND: Con 2 Pt lot 17 RP16R2879 Pt 1 and Con 2 Pt lot 17 RP 16R10911 parts 7 to 9 and 11, Geographic Township of Proton.

THE PURPOSE of the application is to merge the small 1.16 acre residential lot on sideroad 13 with the larger 98 acre farm lot which has frontage on Southgate road 04 and Southgate Side Road 13. The lot when merged will have approximately 403m of frontage on Southgate Road 04 and 1009m of frontage on Southgate Sideroad 13. The area will be approximately 99.16 acres.

THE EFFECT is to sever a 3m strip off of the small residential lot and deed it to the Township of Southgate to allow the lot to be merged with the farm parcel. A 3m road widening has already been taken off of the larger farm parcel.

SEE SKETCH ATTACHED (reverse side)

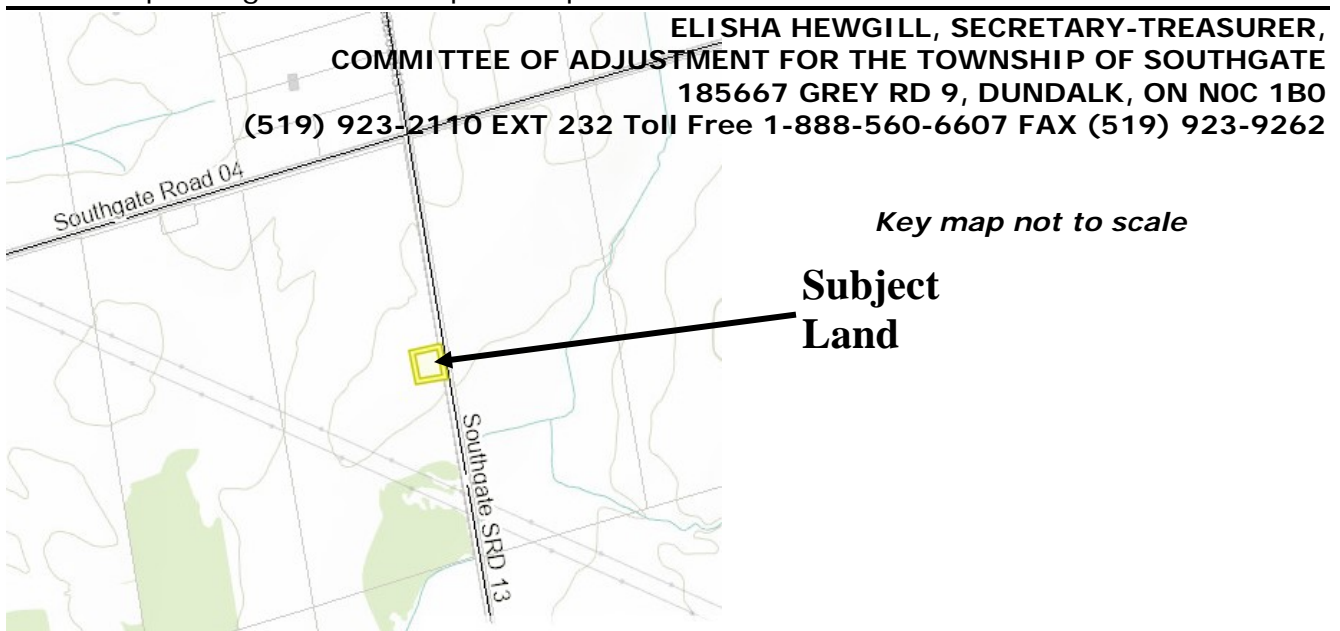

Property owners within 60 metres of the subject land are hereby notified of the above application for consent. The property to be severed will be marked by a sign.

If a person or public body that files an appeal of a decision of the Committee of Adjustment in respect of the proposed consent does not make **written submission** to: Committee of Adjustment, Township of Southgate office before it gives or refuses to give a provisional consent, the Local Planning Appeal Tribunal (LPAT) may dismiss the appeal.

If you wish to be notified of the decision of the Committee of Adjustment in respect of the proposed consent, you must submit a written request to the undersigned.

Additional information regarding this application is available for public viewing on the Township of Southgate website at <https://www.southgate.ca/en/municipal-services/planning-applications-public-notices.aspx#B4-20-Paul-Ina-Martin> OR by contacting Clinton Stredwick, Planner at 519-923-2110 Ext. 235.

Thank you for your correspondence with regard to the proposed Severance. Enbridge Gas Inc, operating as Union Gas, does have service lines running within the area which may or may not be affected by the proposed severance.

Should the proposed severance impact these services, it may be necessary to terminate the gas service and relocate the line according to the new property boundaries. Any Service relocation required due to a severance would be at the cost of the property owner. Also, should future gas service be required to either the severed or retained parcel, a request for gas service needs to be submitted to the District Office.

Should you require any further information, please contact the undersigned.

Dear Ms. Hewgill,

RE: Consent to Sever Land B4-20 (Paul and Ina Martin)
131156 Southgate Sideroad 13; and unassigned civic address
Part Lot 17 Con 2, Part 2 Plan 16R2879; and Pt Lt 16 Con 2 Pts 7 to 9 and 11 Pl 16R10911
Roll Nos.: 420709000601500; and 420709000601200
Geographic Township of Proton
Township of Southgate

Saugeen Valley Conservation Authority (SVCA) staff has reviewed the above-noted application as per our delegated responsibility from the Province to represent provincial interests regarding natural hazards identified in Section 3.1 of the Provincial Policy Statement (PPS, 2020) and as a regulatory authority under Ontario Regulation 169/06 (SVCA's Development, Interference with Wetlands, and Alterations to Shorelines and Watercourses Regulation). SVCA staff has also provided comments as per our Memorandum of Agreement (MOA) with the Township of Southgate representing natural hazards and natural heritage. Furthermore, the application has been reviewed through our role as a public body under the *Planning Act* as per our CA Member approved Environmental Planning and Regulations Policies Manual, amended October 16, 2018.

The purpose of the application is to merge the small 1.16-acre residential lot on Sideroad 13 with the larger 98-acre farm lot which has frontage on Southgate Road 04 and Southgate Sideroad 13.

Recommendation

The application for consent to sever land is acceptable to SVCA staff.

Delegated Responsibility and Advisory Comments

SVCA staff has reviewed the application through our delegated responsibility from the Province to represent provincial interests regarding natural hazards identified in Section 3.1 of the Provincial Policy Statement (PPS, 2020). We have also reviewed the application through our responsibilities as a service provider to the

Watershed Member Municipalities
Municipality of Arran-Elderslie, Municipality of Brockton, Township of Chatsworth, Municipality of Grey Highlands,
Town of Hanover, Township of Howick, Municipality of Morris-Turnberry, Municipality of South Bruce,
Township of Huron-Kinloss, Municipality of Kincardine, Town of Minto, Township of Wellington North,
Town of Saugeen Shores, Township of Southgate, Municipality of West Grey

Township of Southgate in that we provide expert advice and technical clearance on *Planning Act* applications with regards to natural hazards, and natural heritage as set out in the PPS, 2020, County Official Plan (OP) and/or local official plans. Comments below only include features/technical requirements affecting the property.

Natural Hazards:

The natural hazard features affecting the property are floodplain, and potentially unevaluated wetlands. SVCA Hazardous Lands mapping, shows the southern portion of the property to be low in elevation associated with the floodplain of the watercourse and potential wetlands. It is SVCA staff's opinion that the Hazard Lands designation as shown in Schedule A of the Grey County OP, and Schedule A of the Southgate OP, and the EP Zone as shown in the Township of Southgate Zoning By-law 19-2002, as amended generally coincides with the SVCA Hazardous Lands mapping for the property.

Provincial Policy Statement – Section 3.1

Section 3.1.1 of the PPS, 2020 states in part that development shall generally be directed to areas outside of hazardous lands and hazardous sites. It is the opinion of SVCA staff that development as proposed is consistent with Section 3.1.1 of the PPS, 2020.

Township of Southgate Official Plan and Grey County Official Plan

Section 6.2 of the Southgate OP and Section 7.2.3 of the Grey County OP states in part that buildings and structures are generally not permitted in the Hazard Lands land use type. It is the opinion of SVCA staff that development as proposed is consistent with the Southgate OP and the Grey County OP.

Natural Heritage:

It is the opinion of SVCA staff that the natural heritage features affecting the property include significant woodlands, fish habitat and its adjacent lands, and potentially habitat of endangered species and threatened species.

Provincial Policy Statement – Section 2.1

Section 2.1 of the PPS, 2020 states in part that development shall not be permitted in significant woodlands, fish habitat, habitat of endangered species and threatened species and the adjacent lands to the above referenced features except in accordance with the specified policies found in Section 2.1.

Township of Southgate Official Plan and Grey County Official Plan Policies

Significant Woodlands

Significant woodlands are identified as per Appendix B Constraint Mapping of the Grey County OP and are shown in the wooded area in the southern portion of the property. Section 7.4.1 of the Grey County OP states in part that no development or site alteration may occur within significant woodlands or its adjacent lands unless it has been demonstrated by an Environmental Impact Study (EIS) that there will be no impact on the feature or its ecological functions. However, it is the opinion of SVCA staff the preparation of an EIS to address impacts to significant woodlands may be waived in accordance with section 7.11.3 of the Grey County OP. It is the opinion

of SVCA staff that proposed development should not have an impact on the woodlands. Therefore, in the opinion of SVCA staff, significant woodlands policies have been satisfactorily addressed according to the Grey County OP.

Fish Habitat and its Adjacent Lands

Arnott Drainage Works, flows adjacent to the southern and easterly property boundary. The watercourse is considered fish habitat by SVCA staff. Section 7.9 of the Grey County OP states in part that development and site alteration shall not be permitted within fish habitat and the adjacent lands to fish habitat unless the ecological function of the adjacent lands has been evaluated and it has been demonstrated that there will be no negative impacts on fish habitat or on their ecological functions. Furthermore, Section 6.5.6 of the Southgate OP states in part that new development is not permitted within the adjacent lands to cold and warm water streams. Regardless, it is the opinion of SVCA staff that the preparation of an EIS to address potential impacts to the adjacent lands to fish habitat may be waived in accordance with section 7.11.3 of the Grey County OP as impacts to fish habitat are likely to be negligible based on the proposal. Therefore, in the opinion of SVCA staff, fish habitat and its adjacent lands policies have been satisfactorily addressed according to the Grey County OP and the Southgate OP.

Threatened and Endangered Species

It has come to the attention of SVCA staff that habitat of endangered species and threatened species may be located on and/or adjacent to the property. The SVCA role is to identify habitat through a screening process in consideration of the PPS and local policies, however, it is the responsibility of the applicant to ensure the endangered species and threatened species policy referred to in the PPS and the local policies have been appropriately addressed. Please contact the Ministry of Environment, Conservation and Parks (MECP) for information on how to address this policy. MECP inquiries can be addressed to SAROntario@ontario.ca.

Statutory Comments

SVCA staff has reviewed the application as per our responsibilities as a regulatory authority under Ontario Regulation 169/06 (SVCA's Development, Interference with Wetlands, and Alterations to Shorelines and Watercourses Regulation). This regulation, made under Section 28 of the *Conservation Authorities Act*, enables SVCA to regulate development in or adjacent to river or stream valleys, Great Lakes and inland lake shorelines, watercourses, hazardous lands and wetlands. Subject to the CA Act, development taking place on or adjacent to these lands may require permission from SVCA to confirm that the control of flooding, erosion, dynamic beaches, pollution or the conservation of land are not affected. SVCA also regulates the alteration to or interference in any way with a watercourse or wetland.

A large area in the southern portion of the property and an area in the northern part of the property are within the SVCA Approximate Screening Area associated with Ontario Regulation 169/06. As such, development and/or site alteration within the SVCA Approximate Screening Area requires the permission from SVCA, prior to carrying out the work.

"Development" as defined under the *Conservation Authorities Act* means:

- a) *the construction, reconstruction, erection or placing of a building or structure of any kind;*
- b) *any change to a building or structure that would have the effect of altering the use or potential use of the building or structure, increasing the size of the building or structure or increasing the number of dwelling units in the building or structure;*
- c) *site grading; or,*

- d) *the temporary or permanent placing, dumping or removal of any material, originating on the site or elsewhere.*

And;

“Alteration” as per Section 5 of Ontario Regulation 169/06 generally includes the straightening, diverting or interference in any way with a river, creek, stream or watercourse, or the changing or interfering in any way with a wetland.

To determine where the SVCA Approximate Screening Area is located associated with our Regulation on the property, please refer to the SVCA’s online mapping program, available via the SVCA’s website at <http://eprweb.svca.on.ca>. Should you require assistance, please contact our office directly.

SVCA Permission for Development or Alteration

Development or alteration including construction, reconstruction, conversion, grading, filling or excavation, including agricultural tile drainage, proposed within the SVCA Approximate Screening Area on the property may require review and permission (SVCA Permit) prior to works commencing on the property. However, based on the application and the plans submitted with the application, no development is proposed within the SVCA Approximate Screening Area at this time.

Summary

SVCA staff has reviewed this application in accordance with our MOA with the Township of Southgate, and as per our mandated responsibilities for natural hazard management, including our regulatory role under the *Conservation Authorities Act*.

Given the above comments, it is the opinion of the SVCA staff that:

- 1) Consistency with Section 3.1, Natural Hazard policies of the PPS has been demonstrated.
- 2) Consistency with Section 2.1, Natural Heritage policies of the PPS has been demonstrated, with the exception of Section 2.1.7 habitat of endangered species and threatened species, which the applicant must address.
- 3) Consistency with Grey County OP and Township of Southgate policies for natural hazards and natural heritage has been demonstrated, with the with the exception of habitat of endangered species and threatened species, which the applicant must address.

Please inform this office of any decision made by the Township of Southgate with regard to this application. We respectfully request to receive a copy of the decision and notice of any appeals filed.

Should you have any questions, please contact the undersigned.

Staff Report PL2020-034

Title of Report: PL2020-034-B4-20 Paul and Ina Martin
Department: Clerks
Branch: Planning Services
Committee Date: August 26, 2020

Recommendation:

Be it resolved that the Committee of Adjustment receive Staff Report PL2020-034 for information; and

That the severance be approved with the following conditions:

- 1. That** the retained lot be merged with the abutting farm parcel; and
- 2. That** the 3m road widening have a by-law passed to dedicated it as part of the public road allowance.
- 3. That** a survey be provided; and
- 4. That** all outstanding taxes, fees and charges are paid, if any.

Property Location: 131156 Southgate Sideroad 13

The proposal:

The proposal is to sever a 3m by approximately 68m strip of land and add to the Southgate Sideroad 13 Road allowance. The parcel is proposed to be 3m deep by 68m long. This severance is to facilitate the merging of the retained parcel with the abutting agricultural property. It is important to note that no new building lots will be created and this application will actually reduce the number of lots in the Area.

Background

The existing lot was created after 1979 and the planning act has a stipulation in it that indicates "once a consent always a consent", therefore, simply placing the two parcels in the same name, (the smaller parcel and the farm parcel) will not merge the lots. Based on a legal opinion from the Township's solicitor the only way to properly merge the lots is to remove a portion of the smaller (retained) parcel so that it is no longer the same original parcel. The smaller lot is no longer the same parcel, and therefore, it can now be merged with the adjoining parcel.

Staff Review

The following legislative and policy review was conducted by staff in review of this proposal.

Provincial Policy Statement 2020 (PPS)

The Provincial Policy Statement identifies matters of provincial interest including compatible development in rural areas as well as protection of aggregate resource areas.

The PPS allows for consent for legal or technical reasons. This consent is a technical consent to allow the lots to legally merge on title. No other development is proposed as part of this development.

The consent is consistent with the policies of the Provincial Policy Statement.

Southgate Official Plan

The Township Official Plan designates the subject lands as Agricultural, Hazard lands and a small portion of Rural. Generally, lot creation is very limited in the agricultural designation to surplus farm dwelling where MDS can be met. It is likely that the existing residential lot was a surplus farm severance to begin with. Consents for lot additions or to correct lot lines and title concerns may be considered in the Agricultural designation. The important consideration to remember is that no new lots will be created and in fact one fewer lots will be the result. The retained parcel is to be added to the adjacent farm parcel and the severed parcel is to be added to the road allowance. The proposed consent is consistent with the Policies of the Official Plan.

There are no MDS issues with this proposed consent as no new development is being proposed.

This consent is strictly a technical consent to allow the lands to be merged with the surrounding agricultural lot. Making agricultural lots larger and more viable is preferable and supported in the Township Official Plan.

Southgate Zoning By-law

The subject lands are currently zoned Agricultural (A1). This consent will have no substantial impact on the zoning for the A1 zone provisions. A zoning by-law amendment will not be required.

The proposal is consistent with the intent of the comprehensive zoning by-law.
